

INTERNATIONAL WORK

HONG KONG

Eclipse has worked with the Government of Hong Kong to support their monitoring and evaluation of educational provision across the administrative region.

A team of highly experienced tutors from Eclipse led a three-day training event for Hong Kong's educational advisers and inspectors, with a specific emphasis on evaluating the quality of provision for students with special educational needs and profound & multiple learning difficulties in their schools.

The training was so well received that Eclipse hopes to continue developing this relationship, including organising possible exchange visits between schools in Hong Kong and the UK to share good practice.
