

INTERNATIONAL WORK

SPAIN

Eclipse has run two successful conferences for the National Association of British Schools in Spain (NABSS) and is contracted to organise and deliver their annual conferences until 2007.

The 2004 conference, held in Benalmadena and the 2005 event in Sitges were so popular that the venue chosen for 2006 is Madrid, which has been selected because it can accommodate over 300 delegates from across all regions of Spain

In addition to the annual conferences, Eclipse has delivered a range of training to individual and clusters of NABSS schools across Spain. Topics have been as diverse as Assessment for Learning, use of the Foundation Stage Profile, implementation of the Key Stage 3 Strategy and Effective monitoring and self-evaluation.
